

Norfolk Countrysiders

 Agricultural Engineering Course

Keen to learn about Agricultural Engineering?

Open to Norfolk Countrysiders aged 12+, our Agricultural Engineering course is running on the 5th April 2017, in the Easter holidays!

This one day course is only **£70** for Countrysider members and is a great opportunity to learn something new.

During the course you'll have the opportunity to learn some key health and safety points, get stuck into some mechanics and have a go working with electronics - so get on some overalls, steel toe-capped boots and be prepared to get dirty! Steel toe-capped boots are preferable but not essential!

Places are limited at only 8 people per course - so book early, send in the tear off strip below with your payment to secure your place!

*You will be contacted approximately 4 weeks before the course date once your slip and payment have been received. Please let us know as soon as possible if you become unable attend so that we may offer your place to another member. If the course you are applying for is full, we will contact you and a second course may be arranged if there is enough interest.
